WASHINGTON, Thursday, Dec. 28. In the House or Representatives, to-day, notices were given of the introduction of the following bills:

By Mr. PAYNE, to repeal the distribution act. By Mr. STEENROD, to extend the Cumberland road through Maryland, Ohio and Virginia. By Mr. Cave Johnson, to repeal all duties on

salt, and drawbacks. Petitions were presented in order. Among them was one by Mr. Levy, from a citizen of Florida, preferring certain charges against Judge Douglass of Fla,; referred to the Committee on

Also, by Mr. Giddings, from Wm. Jones, a black man, on a suspicion (groundless, as he alledges.) of being a slave, and now imprisoned in this District, and threatened to be sold into slavery on account of inability to pay prison

charges. This gave rise to some irregular conversation. Mr. DELLET of Ala., remarking that this was a judicial question, a remedy being already provided for such cases, moved to lay the petition on the table; refused: Yeas 55, Nays 100. It was then laid over for debate.

Also, by Mr. Caldwell of Ky. from the Ladies connected with St. Matthew's Church in this city, now holding a benevolent Fair, containing a very polite invitation to Members of Congress to attend, and an appeal for their patronage. After the reading, (its only object being thereby effected,) which was received with much merriment, Mr. C. withdrew the petition.

Mr. McConnel of Ala. playfully moved its reference to a Select Committee of one, whom he designated, (Mr. CALDWELL,) remarking also that the ladies could get money enough to relieve all the suffering poor in the city, by reducing the fees of the priests!

The resolution of Mr. HALE again came up. and was again debated during the remainder of the day.

Mr. H. replied to Mr. C. J. Ingersoll's remarks of yesterday, and urged the importance of retrenchment in the Navy as well as in all the branches of the public service.

Messis. J. R. INGERSOLL and Morris of Pa. eloquently defended the Navy against indiscriminate attacks in the ruthless rage for retrenchment and reform, and advocated liberal necessary appropriations despensed with a sound and just eco my for the maintenance of this right arm of national defence. After further debate until a late hour, without

action upon the subject, the House adjourned. In SENATE, Mr. ALLEN offered a resolution calling on the President for any instructions

given our Minister at London with reference to the claims of Great Britain on Oregon, and any correspondence between them on the subject: adopted. Mr. Atchison, on leave, introduced a bill for the organization of the Oregon Territory. Mr. King presented resolutions of the Alabama

Legislature, for the reduction of the rates of postage to Federal coin. Mr. Morehead presented Resolutions of the Kentucky Legislature for remuneration of Christopher Miller, a prisoner among the Indians prior to the Revolutionary War, for services as Spy

The Senate, after a few minutes' Executive session, adjourned.

THE PUBLIC LANDS .- The communication from the General Land Office yesterday laid before Congress, shows the sales of lands for the last year to have amounted to 1.639.674 acres, making two millions of dollars, exceeding the amount received the preceding year by \$600,000. Of the sales, not more than 10,000 acres have been sold above the minimum price, owing, as the Commissioner thinks, to the operation of the pre-emption laws, which enable the actual settlers to secure the choicest lands at the minimum price. During the same period more than ten thousand patents have been transmitted, and all that have been prepared have been signed.

Of all the diseases to which the human frame is subject, sone are more numerous and distressing than cutaneous and distressing than cutaneous disorders. Scrofulcus diseases are hereditary, and the salt round and similar affections are handed down from parents to children, through many successive generations. These affections are not only exceedingly troublesome and annoying in themselves, but have hitherto been incurable. Some medicines and modes of treatment, it is true, have been found to all rists and remisely experts them but in nine cases out cines and modes of treatment, it is true, have been found to alleviate and seemingly suppress them, but, in nine cases out of ten, they re-appear after a partial cure, and rage with more virulence than ever. We were, therefore, prepared to subject the pretensions of Sands's Sanaparilla to a severe scrutiny.—We have carefully and critically examined the claims of the proprietors, and are now ready to endorse their statements.—The efficiency of the Sanaparilla prepared by Messas. Sands, of New York, is proved by satisfactory testimonials from the most respectable authorities. It comes recommended by the highest authority, and cases are recorded in which it has effected the radical cure of patients who have suffered for years without alleviation of their misery. The medicine is prepared by an elaborate chemical process, by which the curative properties of the Sanaparilla are extracted and fixed, and these are then strengthened and combined in an admixture, with other efficient remedies.

DR. TAYLOR'S BALSAM OF LIVERWORT, prepared at 375 Bowery, is justly celebrated as the most wonderful corative of pulmonary diseases in the whole range of pharmacy, some of our most respectable physicians use it in their practice, preacribing it as the best of all remedies for pulmonary complaints and physical debility, and they unhesitatingly recommend it to be kept in every family of a consumptive tendency. It is universally received as one of the standard medicines of the day. The great merit of Dr. Taylor's Balsam is, that in all casses of pulmonary complaints it gives immediate relief. A single bottle will, in most cases, reveal its astonishing virtues, and open at once the fountain of health and ishing virtues, and open at once the fountain of health and strength to the afflicted.

THE WEEKLY TRIBUNE.

-" Have you surrendered?" was the inquiry the commander of the Serapis, as the 'Bon Homme Richard' desisted from firing to repair damages and extinguish the flames that had been rapidly gaining the mastery of his vessel. "Surrendered!" answered Paul Jones, "WE HAVE NOT YET BEGUN TO FIGHT!" In that same spirit, the great Whig Party of the Union, victorious on some points and thrown back at others, unconquerable by force but not impregnable to treachery, having passed through the Elections of 1843, now commences the organization of its forces, the mustering of its battalions, and the systematic diffusion of intelligence preparatory to the great contest of 1844.
